**CLERY ACT**

It is the policy of Schoolcraft College to comply with The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the "*Clery Act*"), a federal law that applies to higher education institutions that participate in federal Title IV financial aid programs. The act is intended to provide students and their families, as higher education consumers, with accurate, complete and timely information about safety on campus.

The Clery Act requires schools to:

- Collect and disclose statistics for the most serious incidents of crimes against persons and property that are reported to Campus Security Authorities and local law enforcement agencies that occur on the campus or in the near-campus community;
- Prepare, publish, and distribute to students and employees an accurate and complete Annual Security Report that includes three years of campus crime statistics, policy statements, and other safety-related information;
- Issue Timely Warnings and Emergency Notifications in response to serious ongoing threats;
- Maintain an open and easily-understood daily crime log;
- Submit crime statistics to the Secretary of Education annually for inclusion in the Department's publicly available websites;
- Comply with fire safety requirements, including statistics, policies, and drills (if the school maintains on-campus student residential facilities); and
- With the passage of the amendments to the Clery Act in the VAWA 2013 reauthorization, take additional specific steps to disclose statistics, policy statements and other safety-related information on sexual assaults, dating and domestic violence, and stalking on campus.
