In accordance with Public Act 331 (1966), as amended, the College elections, by law, shall be conducted by the constituent municipalities or counties. The costs for conducting such elections, with certain exclusions provided by Statute, will be considered as a joint expense between the College and the individual school districts.

It is the intention of the Board of Trustees, when College elections coincide with elections held in constituent school districts, to pay their mutually agreed “fair share” of such expense up to 50%.

For special elections involving only the College, the College will pay the election costs.
